ISO 13485 REGISTERED

Date: Wednesday, March 18, 2020

Dear Customer:

Hobbs Medical has been closely monitoring the progression of COVID-19 with guidance from the CDC. Please refer to the following link: Interim Guidance for Businesses and Employers issued by the CDC (<https://www.cdc.gov/coronavirus/2019-ncov/community/guidance-business-response.html>).

We are working hard to ensure the safety of our employees and the availability of our products.

Please be assured that Hobbs Medical has no manufacturing facilities outside of our Stafford Springs, CT location. Additionally, Hobbs Medical does not source any raw materials/components parts from any of the COVID-19 epicenters.

Taking the effects of the COVID-19 outbreak into consideration, we have reviewed our processes and are putting in place a contingency plan with the objective of minimizing any disruption of supply to our customers.

At this time, Hobbs Medical is still producing at normal capacity without an expectation of delay. If this changes in any way, we will be sure to alert you. If you should have any further questions, please call (800) 344-6227.

Kind regards,

HOBBS MEDICAL, INC.
